### SUPPLEMENTAL EXAMINER'S AMENDMENT

The following is a duplicate to that mailed by the Office 10-9-2007 except it introduces the Amendment dated 10-30-07, which merely changes the dependency of claim 7.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Withdrawn claims 28-34 are cancelled.**

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-14, 18-38 and 40 are pending. Claims 1 and 35 are independent. Both independent claims disclose a source of pulsed electrical energy *configured to apply bursts of pulses* lasting 1ms or less separated by a burst interval of greater than 1ms. The Office had asserted figure 18f in Malis 4,590,934, which shows **bursts of pulses** lasting 6ms separated by a burst interval of greater than 1ms (actually shows 3ms). The Office

Art Unit: 3739

argued that Malis was capable of the Applicant's claimed protocol including 1ms or less. The Applicant has since filed a Declaration dated 7-9-07 from Harold Walbrink, expert in electrosurgery, stating in point 10 that the difference between Malis' 6ms and the Applicant's 1ms or less is "technically significant and more than a routine engineering difference." Further, because of their differences, one of ordinary skill in the art would not have modified (thereby obviating the obviousness rejection) Malis "since it would be understood by him that a shorter burst [such as 1ms or less] would not deliver enough electrical power for cutting tissue[.]" The Office will rely solely on these facts to withdraw the remaining rejections toward the pending claims and thus assert that the pending claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J. Vrettakos whose telephone number is 571-272-4775. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on 571-272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
